Joined the Agreement of Mayors

The Sustainable Energy Development and Climate Action Plan was approved for the period until 2030 for the Novopskov community

Never getting tired of being creative in order to consolidate residents around the development of their

Since February 24, 2022, residents of the Community have been fighting for freedom all the time

Some joined the Armed Forces of Ukraine, some took part in peaceful actions under Ukrainian flags until the armed occupiers opened fire on them...

Instead of being enslaved, thousands of Novopskov residents are now scattered around the world, but remain to be the united front. They learn and gain experience that will be important in rebuilding the Community after the liberation of their territory.

During 2022
2046 people were evacuated from the Novopskov community
- to the territory under the control of the Government of Ukraine,
750 people - abroad

In October 2022, the President of Ukraine established the Novopskov Military Administration

Functions:

Support for internally displaced persons and families of fallen defenders

Preparation for work in the de-occupied territory of the Novopskov community

Expansion of partnership relations

The main areas of cooperation and projects include:

- Professional development of educators and improvement of the infrastructure of school premises
- Reconstruction and modernization of residential and communal facilities
- Joint projects in the field of energy efficiency and ensuring energy independence

Raising the level of education

We plan to develop the competence of our teachers by sharing experience with partner cities abroad

Modernization of school premises

The project is aimed at creating safe and comfortable conditions for the education and development of the young generation of Ukrainians

Improvement of the water supply and drainage system

The project will help provide the Community with high-quality drinking water and improve the ecological situation.

Use of renewable energy sources

After de-occupation, the Community will become less vulnerable to interruptions in the energy market and will be able to provide itself with energy in emergency situations

- We invite you to cooperation. Together to Victory!

Mykola Startsev,
Head of the Novopskov Settlement Military Administration of the Starobil district of the Luhansk region
